Matters for Information:

ITEM NO. 2(a). Progress on construction of Hyderabad Campus: The Registrar apprised the members about the progress on construction of Hyderabad campus and their timelines. The registrar intimated that water proofing work and plastering work in most of the building areas were in progress and presented the report received from Hyderabad Campus to the members (Annexure 1). He intimated that there has been a 4-5% cost escalation in the tendered amount of the civil work of the project. It was apprised that the cost and expense when seen from overall perspective of the contract value was well in control except in few areas where the existing design was to be updated based on the actual site condition. It was brought to the notice of the members that the soil bearing capacity along with loose and porous condition of the earth was a handicap and a challenge for erecting the structure and a soil expert was appointed to address the issue, on whose recommendation, the original tender was prepared. However, once the excavation was over, the exposed soil conditions warranted further design modifications, which had additional cost implications. In response to Dr Adholeya's query whether soil bearing capacity test was done before, the Chair said it was done in the beginning. Mr. Amjad wanted to know why there was a design change. It was informed that all issues pertaining to design were being sorted out in a timely manner by the contracted architect based on the ground conditions. As per the architect's estimate, completion certificate for the civil works can be given in December 2018. The Registrar informed that, the project would require a couple of months more to be substantially complete.

The Board noted the matter.

ITEM NO. 2(b). MoU signed with National Institute of Disaster Management (NIDM). The Registrar informed that a MoU had been signed between TERI SAS and National Institute of Disaster Management (NIDM). He stated that both parties have identified concrete areas of cooperation starting from 2018-19 in capacity building, undertaking case studies of disaster, collaborate for documentation, undertaking research project fellowship programmes, publication of joint articles, knowledge management and other areas of mutual interest.

The Team assessed and evaluated curriculum, teaching and learning activities, research work, extension, infrastructure, learning facilities and other aspects listed as quantitative matrices. The members held interactions with IQAC, Departments, faculty, admin staff, students, Board members, alumni, parents and visited all academic and

administrative facilities. A cultural programme was presented for their review and perusal. The team checked documentary evidence, prepared their report and held an exit meeting with all stake holders. The peer team assessment constituted 30% of the overall assessment carried out by NAAC. The Chair informed the Board members that the University had received the NAAC ranking which was less than what was expected. She intimated that a CGPA of 2.84 with a grade of B++ have been awarded based on the SSR and Peer team report and student survey. She informed that the University was undertaking an analysis of the report so as to apply for reassessment. Dr Arun Kansal intimated that earlier (during first cycle) all the assessment and verification were done on the site, but this time(second cycle), NAAC had made a change in which 70% weightage was given to information gathered online through the portal. He stated that there are some areas where the University has fared well and some areas it had received less score. He stated that the University would look at areas in which the information provided were not adequate.

It was also suggested that mini-jamborees could be conducted at school level so that quality participation from students could be ensured. It was also suggested that the organisers could plan conducting sessions related to school students in the morning and college level students in the afternoon to ensure larger participation.
