## PROFILE

Gaurav Singh Karki is a PhD scholar from TERI SAS. The student is working in the government sector with over 30 years of experience. The student is pursuing his PhD on “Transformation of Military Stations into Smart Livable Military Stations in India: A Study on Necessity and Challenges”.

## PhD RESERACH

**Title of PhD thesis:** “Transformation of Military Stations into Smart Livable Military Stations in India: A Study on Necessity and Challenges”.

Military settlements in the present, are out of the ambit of the Government of India’s ambitious smart cities initiative. It is imperative that the military settlements also keep pace and transform into smarter and more sustainable settlements. The study by the student attempts to examine the necessity and probable challenges for the envisaged transformation.
