PROFILE

I currently serve as the Director of Innovation at Emerson Electric Co. With a career spanning over 24 years, I have gained extensive experience in the thermal power generation and air conditioning industries. My journey has taken me across India, the USA, and the Middle East, where I have held various full-time roles, contributing to the growth and innovation of the organizations I've been part of.

I hold a Bachelor's degree in Mechanical Engineering from Bangalore University and a Master's degree in Mechanical Engineering from the University of Maryland. To further expand my expertise, I completed an MBA from the SP Jain Institute of Management and Research. Currently, I am pursuing a Ph.D. at TERI School of Advanced Studies, which reflects my continuous commitment to learning and contributing to sustainable solutions in my field.

Through my diverse educational background and professional experiences, I have developed a strong foundation in engineering innovation and business strategy, enabling me to lead transformative initiatives at Emerson.
