Before joining EMC and EKF, Prahlad worked as a Fellow and Area Convenor at The Energy and Resources Institute (TERI), New Delhi.

## **PhD RESERACH**

**Title of PhD Thesis:** Exploring the potential for a low-carbon transition in Indian MSMEs by implementing circular economy practices and resource efficiency strategies.

## **Brief about PhD Research:**

Prahlad's doctoral research focuses on exploring the potential for a low-carbon transition in Indian MSMEs by implementing circular economy practices and resource efficiency strategies. His work also examines frameworks for fostering symbiotic industrial coexistence. He is conducting this research under the supervision of Dr. Shaleen Singhal and co-supervision of Dr. Suneel Pandey, influencing their development in the current scenario, which is influenced by spatial, economic, legal development of the city. The study examines periodic markets in Delhi to develop a detailed understanding of spatial development of these markets.
