## PhD RESERACH

**Title of PhD Thesis:** Spatial development of Street markets/  
Hafta bazaars of Delhi

## Brief about PhD Research:

Rajshree is working on spatial development of Street markets/ Hafta bazaars of Delhi. The study focuses on spatial development of weekly markets in the city, while deriving the roots from historical evolution of periodic markets and further working on the factors influencing their development in the current scenario, which is influenced by spatial, economic, legal development of the city. The study examines periodic markets in Delhi to develop a detailed understanding of spatial development of these markets.
