

**Dr Dilupa Nakandala** is a Senior Lecturer in Management and the Academic Course Advisor for Higher Degree Research in the School of Business. Dilupa also leads the Agribusiness theme in the Global Centre for Land-based Innovation, Western Sydney University. Dilupa's research focuses on technology and innovation management and supply chain management. Dilupa's research has been recognised by the funding from the Australian Research Council, Department of Foreign Affairs and Trade, Australia and Western Sydney University. She has published in top-tier journals including Decision Support Systems, Knowledge-based Systems, European Journal of Operational Research, Int'l Journal of Production Research, and Supply Chain Management, an Int'l Journal. She was the lead author of the 'South Asia' chapter of the latest UNESCO Science Report that analysed the science, technology and innovation dynamics of seven countries. Dilupa has been invited to speak at prestigious conferences such as INFORMS Annual Meeting 2017 in Houston and FRESH conference in 2019 in Sydney. Dilupa obtained BSc (Hons) in electrical and electronic engineering (First Class) at the University of Peradeniya, MBA in management of technology at the University of Moratuwa, Sri Lanka and PhD in innovation studies at Western Sydney University. Prior to joining the academia in 2007, she held multiple roles in engineering, integrated solution designs, quality assurance, business, process and project management and business compliance in a multinational business environment for over eight years. She is also a certified Project Management Professional in PMI, USA, and has PRINCE2 Practitioner qualification.
