

Course title: Development Economics				
Course code: MPE 184		No. of credits: 4		L-T-P: 58-0-4
Learning hours: 60				
Pre-requisite course code and title (if any): MPE 131 (Microeconomics) or equivalent				
Department: Department of Policy Studies				
Course coordinator: Dr Seema Sangita			Course instructor: Dr Seema Sangita	
Contact details: seema.sangita@terisas.ac.in				
Course type: Core			Course offered in: Semester 2	
Course description: This course introduces the students to challenges of economic development in India and the rest of the world. The introductory module offers a foundation for the course. The course offers an understanding of both historical trends and the present status of poverty, inequality and well-being in developing countries with an emphasis on empirical challenges in the estimation of these indicators. It also offers a microeconomic perspective of aspects that enable (or act as barriers) to economic development broadly categorized into functioning of markets (of the factors of production), political and social institutions. In each module, the students will examine the relevant theories, empirical validity of the theories (especially in the context of the Indian economy) and the associated policy implications.				
Course objectives: 1. To introduce the students to theoretical and empirical issues pertaining to economic development. 2. To expose students to data and measurement issues of development indicators. 3. To enable students in analysing constraints to economic development. 4. To develop an understanding on India's economic development challenges. 5. To equip the students with tools and techniques used in the research in economic development. 6. To develop capacity among the students for research in policy domain.				
Course contents				
Module	Topic	L	T	P
1	Introduction Evolution of development economics Understanding the economic lives of the poor Development Analysis: Selected issues pertaining to data and causal inference. Practical: Introduction to development data in India, with a focus on national level household surveys like NSSO, IHDS, etc. Understanding data documentations, identifying methodology of survey and compilation of data and assessing the limitations of the data.			
		2		
		2		
		6		4
2	Outcomes of the Development Process Conceptualizing well-being and poverty; measurement of poverty; debates on assessment of poverty in India; Anti-poverty programs. Understanding Inequality; Measurement of Inequality; Inequality in India			
		8		
3	Markets and Market Failures Employment and wage determination in developing countries; mobility of labour; informal labour markets. Rural land markets, property rights, tenancy contracts. Role of financial capital markets in developmental process; credit and insurance markets in agrarian economies; evaluation of microfinance model as an alternate to traditional banking.			
		6		
		6		
4	Institutions and Development Government failure as barrier to development: case studies of corruption and ineffective provisioning of public goods Social institutions as barrier to development: social discrimination; impact of caste, religion and gender discrimination on developmental outcomes in India. Social institutions as enablers of development: social networks

Total (in hours)	58		4
<p>Evaluation Criteria</p> <p>Test 1: Empirical Exercise 20%</p> <ul style="list-style-type: none"> a. Task: Replication of empirical analysis of any existing literature on any topic in groups of 3 or 4 students b. Structure of submission: A report that consists of the summary of the existing literature; outline of empirical method; data sources; interpretation of the results; class presentation and discussion. c. Indicators of assessment: content (all items outlined in (b) above), structure and quality of the report (weightage: 75%); content and quality of presentation of the report in the class (weightage: 25%). <p>Test 2: Critical Review of Literature 30%</p> <ul style="list-style-type: none"> a. Task: Undertake a critical appraisal of literature on any topic listed in the syllabus. b. Structure of submission: A paper that consists of introduction; summary of the literature; critique of the literature with supportive evidence; synthesis and conclusion c. Indicators of assessment: selection of appropriate literature (weightage: 5%); clear and concise summaries (weightage: 30%); critique that is supported by evidence using author's calculations or by literature (weightage: 40%); effective introduction and conclusion (weightage: 10%); well-structured essay with no grammatical errors (weightage: 10%); and appropriate format of citations and references (weightage: 5%). <p>Test 3: Written examination 30%</p> <p>Test 4: Policy Brief 20%</p> <ul style="list-style-type: none"> a. Task: Carry out a comprehensive literature survey on any topic with policy relevance; identify policy suggestions from the literature; evaluate the applicability of the policy suggestions in India's context; assess potential risks of the policy; draft a policy brief for a non-technical audience. b. Structure of submission: policy brief that outlines the developmental challenge; policy gaps in India; policy suggestions based on evidence in the literature, expected outcomes, an assessment of potential risks of implementation of the policy, conclusion. c. Indicators of assessment: content and quality of policy brief (weightage 75%); depth of literature survey (weightage 25%) <p>Note: Same topics may not be selected for Test1, 2 and 4</p>			
<p>Learning outcomes:</p> <p>At the end of this course, students will be able to</p> <ol style="list-style-type: none"> 1. Conceptualize the developmental challenges in India and other developing nations. (Evaluation: All components) 2. Understand theories and empirics in Development Economics. (Evaluation: All components) 3. Understand data and empirical methods used in development analysis (Evaluation: Empirical Exercise) 4. Critically appreciate the literature in Development Economics (Evaluation: Critical Review of Literature) 5. Synthesize Evidence for Policy (Evaluation: Policy Brief Assignment) 6. Demonstrate Soft skills: written and verbal communication; critical thinking; team work
