

Course Title: Governance and Climate Change			
Course Code: NRC 141	No. of Credits: 3	L-T-P: 32-13-0	Learning Hours: 45
Pre-requisite Course Code and Title (if any):			
Department: Natural and Applied Sciences			
Course Coordinator:		Course Instructor: Dr Shree Narayan Mishra	
Contact Details: shreenarayan.mishra@terisas.ac.in			
Course Type: Elective		Course Offered In: Semester 3	
Course Description Climate change has posed multiple challenges to the political system. It has created an additional incentive for countries to engage in climate change issues and minimize its potential impacts. Building adaptive and mitigating capacities to facilitate these changes is a very complex process. This necessitates the involvement of stakeholders and advocacy. Here, the role of governance becomes very important in ensuring a path of development that takes these aspects into consideration.			
Course Objectives 1. To enable the students to situate the knowledge and issues pertaining to climate change in a socio-political context and understand the drivers of the climate change debate. 2. To enable the students to identify various stakeholders and their roles in the climate change debate and understand the issues pertaining to negotiations on climate change at the national and international levels. 3. To assess climate governance from the perspective of social equity and other local concerns.
